

Internship Quality Engineer

Position: Quality Engineer Internship
Employment: training period: 6 months
Company: Bcomp Ltd., Fribourg, Switzerland
Starting date: August 2021 or as soon as possible

Position Overview

Bcomp Ltd. is a young and dynamic Swiss company specialized in the development and sales of natural fibre composite solutions for high performance applications. To support the company's current hyper-growth phase and further boost its market entry into large-scale Automotive, Bcomp is looking for an Intern as Quality Engineer for a period of 6 months.

The intern will be a part of the operation team and interact closely with internal and external stakeholders. Connected to the Quality Manager, the main mission will be to support the implementation of new certifications ISO 14001 and IATF 16949 for our Head Quarter, our production area, and our out-sourced manufacturing.

Training and coaching on various methodologies, implementing new tools, and supporting mindset changes will be part of the challenge for this position.

Main Responsibilities

Conformity and Certification

ISO 14001, IATF 16949:

- Updating the documentation according to the new requirements from the certifications.
- Leading the defined action plan in connexion with other departments and managers
- Supporting different team members in order to deliver the expected results on time

ISO 9001:

- Supporting the consolidation and continuous improvement of the actual Quality Management System
- Supporting the integration of the production area in the scope of the next ISO 9001 certification
- Be proactive

Global Quality

- Supporting the Quality Manager in various tasks connected to the improvement of the Quality Management System

Qualifications and Personal Qualities

- Engineer HES/EPF recently graduated or in progress
- Experience in Quality in an operational field context with experience in System Management improvement
- Experience on Certification ISO 9001
- Experience on Certification IATF 16949 is a strong asset
- Knowledges in MSA, APQP, PPAP, FMEA and SPC is a strong plus
- Languages: Fluent in French, strong skills in English, German is a plus
- MS Office and standard IT tools
- Able to work autonomously and share relevant information with the team
- Structured way of working with an ability to handle many tasks in parallel
- Ability to identify opportunities and to propose improvements
- Able to work under pressure with tiny deadline
- Strong verbal communication skills to coach the change and implement standards
- Positive and energetic mindset – everything is possible!
