

Internship SAP B1 & data management

Position: SAP B1 and data management intern
Employment: 6-12 months - 100 %
Company: Bcomp Ltd., Fribourg, Switzerland
Starting date: August 2021

Position Overview

Bcomp Ltd. is a young and dynamic Swiss company specialized in the development, marketing and sales of natural fibre composite solutions for high performance applications. To support its goal to enter into the automotive market, Bcomp is looking for an intern specialized in data management and ERP systems to join the Operations team in this industrialization phase.

The intern will manage and enhance the company master data and closely work with the Operations team to support the implementation of our future ERP needs.

Main responsibilities

- Maintain master data in SAP Business One
- Implement procedures to standardize data management processes
- Define specifications of our future needs and propose improvement and implementation plans
- Work closely with industrialization and operations teams

Qualifications and Personal Qualities

- Completed technical or commercial vocational training (EFZ / CFC)
- Experienced in data management (academic and/or professional experience), work experience in an industrial environment is a plus
- Excellent Excel skills, familiar with ERP systems, preferably SAP Business One
- Strong analytical skills and affinity for numbers and data
- Independent, structured and organized way of working with an ability to create standards
- Strong verbal and written communication skills
- Fluent in English is a must, French or German is a great advantage
- Willingness to meet challenges with a proactive, positive, and energetic mindset – everything is possible!

About us

Bcomp is an award-winning high-tech with a background in the sports industry, now focusing on entering the Motorsports and Mobility sectors. We develop sustainable lightweighting solutions based on natural fibers in close collaboration with our customers, in a fast-paced and entrepreneurial working environment.
