

Intern in textile engineering for fastmoving Swiss high-tech company

Position: Intern
Employment: 80 - 100 %
Company: Bcomp Ltd., Fribourg, Switzerland
Starting date: Earliest August 2022

POSITION OVERVIEW:

Bcomp Ltd. is a young and dynamic Swiss company specialised in the development, marketing, and sales of natural fibre composite solutions. As an intern, you will be working in the R&D team to support the investigation, development and optimisation of yarns and textiles. You will be assigned to both, long running development projects with important responsibilities and smaller supporting tasks for the R&D team.

MAIN TASKS AND RESPONSIBILITIES:

- Support the R&D team in the development and characterisation of textile products (yarns, weaves, composites...)
- Support the team in understanding textile processes, possibilities, and limitations
- Bring textile technical support to purchasing and quality team
- Visual, spectrophotometric, and mechanical investigation of products

QUALIFICATIONS AND PERSONAL QUALITIES:

- B.Sc. in textile engineering
- Knowledge on technical textiles and natural fibre textiles
- Knowledge on fibre preparation, spinning and weaving, especially with bast fibres
- Fluent in English is a must, German or French a great advantage, any other language is a plus
- Likes interacting with people in general
- Positive and energetic mindset – everything is possible

WE OFFER:

- Flexible and welcoming work environment
- Automatic authorship for publications/patents related to the work
- Many full-fledged engineers at Bcomp were once interns who had shown the right interest, initiative, and technical skills to be offered a position at the end of their studies.

ABOUT US:
