

ENVIRONMENT AND SAFETY SPECIALIST INTERN

IN A FASTMOVING SWISS HIGH-TECH COMPANY

Position: Internship - 100%

Company: Bcomp Ltd., Fribourg, Suisse

Start date: As soon as possible

POSITION OVERVIEW

Bcomp Ltd. is a young and dynamic Swiss company specialised in the development, marketing and sales of natural fibre composite solutions for high performance applications. With a background in the sports industry, we are now focusing on entering the motorsports and mobility markets. We develop sustainable lightweighting solutions based on natural fibres in close collaboration with our customers, in a fast-paced and entrepreneurial working environment.

To strengthen its Quality, Safety and Environment team and collaborate with all the other departments, Bcomp is looking for an Environment and Safety Specialist Intern.

The position offers the opportunity to manage all operational issues as well as ensure the application of Bcomp standards in a very dynamic and innovative industrial context. The intern will also work in collaboration with the QSE Engineer to support the implementation of the requirements of the certifications expected for 2023 (ISO 9001, IAFT 16949).

Depending on the profile, different improvement projects can be offered (system quality, operational quality, supplier quality, project quality, etc.)

MAIN TASKS AND RESPONSIBILITIES

Safety

- Be a driving force in continuous improvement to develop the safety spirit in the company
- Support the achievement of the company's safety objectives
- Identify hazards and participate in risk analysis, propose actions and monitor them regularly
- Participate in the management of chemical risks (risk analysis, action plan etc.)
- Participate in document management
- Set up and plan/conduct safety audits, prevention campaigns and safety tests
- Participate in the creation and implementation of crisis management within the company
- Management of accidents/incidents/internal near misses and related action plan

Environment - External production and supplier

- Support the achievement of the company's environmental objectives

- Support the review of the methodology for prioritizing environmental aspects and impacts, as well as the preparation of the annual ISO 14001 certification audit
- Be a driving force in the completion and review of environmental analyses
- Internal accident/incident management and related action plan

System

- Support the deployment of the ISO 9001 process throughout the company
- Support the deployment of an electronic document management solution, as well as their standardization throughout the company's processes

QUALIFICATIONS AND PERSONAL QUALITIES

- B.Sc in Environment Engineering, HES Engineering or equivalent
- English language required. Any other language is also appreciated !
- Able to work independently, cross-functionally and share relevant information with the team
- Structured work method with the ability to manage multiple projects in parallel
- Ability to identify opportunities and propose improvements
- Strong verbal communication skills to support change and implement standards
- Positive and energetic spirit - anything is possible!
